Voit tutustua lisää kongressien aiheisiin, antiin ja määräaikoihin alta ja nettisivuilta: <https://eabct.eu/>

EABCT Newsletter December 2019

50th EABCT Congress - Athens - 2-5 September 2020

Adapting CBT to socially and culturally diverse environments.

It is a great honour and pleasure to welcome you to the 50th European Association of Behavioural and Cognitive Therapies congress to be held in Athens on September 2nd-5th, 2020. The 2020 congress represents a hallmark for the history and the future of EABCT and what greater place to celebrate this event than Athens. Athens, the capital of Greece, is one of the oldest cities in Europe, full of historic landmarks and a vivid everyday life that can inspire its visitor into a journey of inner discovery and intense enjoyment.

The Greek organising committee that represents the Greek Association of Behavioural Research

one of the oldest psychotherapy associations in Greece (est 1974) has been working intensively in order to provide you with all the new developments and innovative ideas in the field of Cognitive Behavioural Therapy presented by eminent figures as well as younger colleagues that have distinguished themselves as researchers and clinicians. Furthermore, our aim is to offer you a conference with a strong emphasis on interaction and networking between the scientific community and the public.

We look forward to welcoming you in Athens.
Fragiskos Gonidakis - congress president
